Alex Rowan

Backend engineer

Manchester, UK | Contact details omitted from this fictional sample

Profile

Backend engineer in payments, working across service ownership, migrations and production support. Uses Python and Java and works with product and engineering colleagues.

Experience

Senior Backend Engineer | Example Payments

July 2022 - present

- Owned three payment services in a five-person team, and moved them off the legacy queue over two years without a customer-facing outage (2022-2024).
- Develop APIs in Python and FastAPI, write PostgreSQL queries and automated tests, and review changes with product colleagues before release.
- Participate in the on-call rota and write runbooks for incident investigation and service recovery. Work with engineers on release plans and rollback checks.

Backend Engineer | Example Commerce

September 2019 - June 2022

- Maintained order-processing services in Java; investigated failed orders and resolved defects with customer support.
- Added integration tests for the order API and documented its endpoints for the frontend team.

Skills

Python, FastAPI, Java, PostgreSQL, AWS, RabbitMQ, Git and automated testing.

Education

BSc Computer Science | Example University | 2016-2019
